

High Precision Collet Chuck

GAL-15-D2 High Precision Collet Chuck

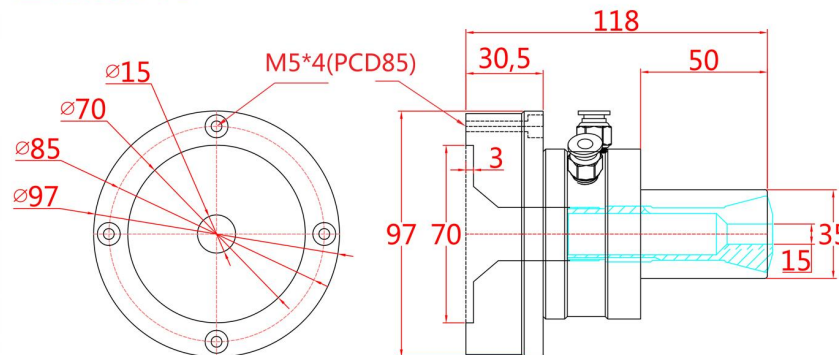

- Steel chuck body, long service life
- High precision, body accuracy within 0.002mm
- Repeated clamping accuracy 0.005mm
- Cylinder front-mounted design, no need to add a rotary cylinder.
- High speed, maximum speed 3500 RPM
- With YB-15 collet, maximum hole 15mm
- Dustproof and waterproof (under inflated condition)
- Widely used in a variety of high-precision grinding machines, four-axis, five-axis and other precision testing equipment
